15C. DATE SIGNED			16C. DATE SIGNED														
_____ (Signature of person authorized to sign)			_____ (Signature of Contracting Officer)														

Control #	QUESTION	RESPONSE
01	Where is the attachment that describes each cost by line item as referenced in your response to Question 7. Does this list identify each line item that will be chargeable to the MEO?	The attachment referred to in question 7 is included on the web as the file "A matrix converting object class to working capital fund codes." However, we are also including a new file that covers descriptions for each major category that remains in the modified budgetary information in response to the next question.
02	Can you please provide a corrected FY01 Budget and a FY02 Budget?	We are providing modified budgets showing estimates of costs that remain in scope for the original two budget years (FY 00 and FY 01) of data that was included on the CD-ROM in the technical library for the RFP. The FY 02 budget has not been completed since the final version will be dependent on the outcome of this RFP.
03	Please provide an updated version of the matrix entitled "number of employees by each performance area" with the current number of employees to be included in the A-76 study (added: clarify number taken out due to scope reduction and then show vacancies separately).	<p>In amendment #2 we provided the two files FTEs by location and by performance area. The total number of FTEs in-scope that the workload was based on was 392.07.</p> <p>In amendment #1 we recognized that the MOA with the Army was pending. The solicitation requires reductions be identified that would be offered if the Army MOA workload was eliminated. Technically the Army MOA number (28) is not out of scope.</p> <p>In addition to the regionalization information that we provided in amendment #3 we are providing the attached two files. The first gives the specific positions (28) that were transferred to the Army under the MOA we referenced under amendment #1. The second file provides a listing by position and grade of current unfilled positions at DFAS Denver (24) and DFAS San Bernardino (3), in other locations on-board positions match authorized positions. The actual workload requirement is still represented by J.6, the on-board numbers don't change the PWS requirements.</p>
